Walk200b

Ambulatory Blood Pressure Monitoring recorder

- Blood Pressure monitor recording up to 24 hours. Available with Bluetooth or USB connectivity.
- Compatible with Cardioline CubeABPM analysis software.
- Simple to use, small, lightweight, and noiseless pump to maximize patient comfort.
- Self-adapting algorithm for controlling cuff inflation.
- LCD screen to display measured values and service messages.
- Ability to manually record events throughout the entire recording.

Technical specifications

Method	Oscillometric
Pressure value range	Systolic from 60 to 290 mmHg Diastolic from 30 to 195 mmHg
Pulse range	30 to 240 beats per minute
Measurement range	5, 10, 15, 20, 25, 30, 40, 50, 60, 90 and 120 minutes
Measurement protocol	2 editable interval groups
Storage capacity	300 measurements
Data transfer	Bluetooth (Class 1 / 100 m) USB (optional)
Battery capacity	> 300 measurements
Dimensions	128 x 75 x 30 mm
Weight	240 g with batteries

Stand-alone use: exams can be downloaded from recorders to the CubeABPM software via Bluetooth or USB cable to be analyzed, reported, and archived.

Telemedicine applications: exams can be downloaded from the recorders and sent to Cardioline's Web ABPM for analysis and remote reporting.
